Hospice Helpful Tips

- KEPRO only authorizes elections periods. Molina Healthcare prices and processes claims for nursing home reimbursement.
- Once Hospice care is elected, a flag is added to the Member profile in Molina that does not allow for any other services other than Hospice care to be billed to WV Medicaid.
- Please be aware of what election period has already been approved in the provider portal. Skipping of election periods can cause delays with an authorization number being provided.
- Member can revoke Hospice care services. After revocation four times, the member is no longer eligible for hospice care.
- If a member discharges or revokes from Hospice Care, the hospice agency is required to notify KEPRO Healthcare. If KEPRO is not notified, the patient will not be able to use Medicaid for any services. ***We see this happen a lot with medication and pharmacies cannot dispense medication as long as the hospice flag is still active in Molina system***
- A signed and dated certification, signed and dated plan of care and a signed and dated HEF-01 form are required within 8 days of the election period
- Sending a HEF-01 after discharge, revocation or death notification to KEPRO is required.
- If an error is received when an agency is attempting to key in election one, this indicates that election one has already been entered. Please contact Molina Healthcare to inquire of the previous hospice provider.
- Hospice agencies are not reimbursed for the last day of care if a patient discharges from service
